

- 1 Thanks for the smart locking system, it had made the installation much easier than before.
- 2 Sideling mounting holes on wall plate for horizontal level adjustment during the installation.
- 3 Slim designing, the distance from wall to back of TV is only 36mm when TV in the flat position.
- 4 Incremental tilt function 0-5-10-12-15°.

|                                                                                                                                                                                                                                                                          |                                                                                     |                                                                                                                                                                                                                                                                                                                                                                                                                     |                                                                                       |
